i) Workplace health and safety unit: any unit established to provide occupational health and safety services at

(1) (**Amendment: 25/4/2013-6462/1 Article**) The expression "özre uğratan" is changed to "engelli hale getiren" in the subparagraph (g) of the paragraph (1) of the Article 3.

the workplace with required equipment and personnel;

j) Council: National Occupational Health and Safety Council;

k) Committee: occupational health and safety committee;

l) Occupational disease: any illness caused by exposure to occupational risks;

m) Common health and safety unit: any unit which is established by public institutions and organisations, organised industrial zones and companies operating under the Turkish Code of Commerce in order to provide occupational health and safety services to workplaces, with required equipment and personnel and which is authorised by the Ministry;

n) Prevention: all the measures planned or taken in order to eliminate or reduce occupational health and safety risks at all stages of work undertaken at the workplace;

o) Risk: probability of loss, injury or other harmful result arising from hazard;

ö) Risk assessment: activities required for identifying hazards which are existing in or may arise from outside the workplace, analysing and rating the factors causing these hazards to turn into risks and the risks caused by hazards and determining control measures;

p) Hazard: potential which exists at the workplace or may arise from outside the workplace to cause harm or damage which could affect the worker or the workplace;

r) Hazard classification: hazard group in which a workplace is identified to fit in, taking into account the nature of the work performed, substances used or produced at every stage of work, work equipment, production methods and types as well as other issues related to work environment and working conditions in terms of occupational health and safety;

s) (**Amendment: 12/7/2013-6495/101 Article**) Technician: any person with the title of technical instructor, physicist and chemist as well as any graduate of an occupational health and safety programme at universities;

ş) Occupational nurse: any nurse/health technician who is authorised to perform the nursing profession pursuant to the Nursing Law dated 25/2/1954 and numbered 6283 and who has the occupational nurse's certificate issued by the Ministry in order to work in the field of occupational health and safety.

(2) Employer's representatives who act on behalf of the employer and are involved in the work and the management of the workplace are considered as employers as far as the implementation of this Law is concerned.

SECTION TWO

Duties, Authority and Responsibilities of the Employer and Workers

General responsibility of the employer

ARTICLE 4 – (1) The employer shall have a duty to ensure the safety and health of workers in every aspect related to the work. In this respect, the employer shall;

a) take the measures necessary for the safety and health protection of workers, including prevention of occupational risks and provision of information and training, as well as provision of the necessary organization and means and shall ensure that these measures are adjusted taking account of changing circumstances and aim to improve existing situations.

b) monitor and check whether occupational health and safety measures that have been taken in the workplace are followed and ensure that nonconforming situations are eliminated.

c) carry out a risk assessment or get one carried out;

d) take into consideration the worker's capabilities as regards health and safety where he entrusts tasks to a worker;

e) take appropriate measures to ensure that only workers who have received adequate instructions may have access to areas where there is serious and specific danger.

(2) In case an employer enlists competent external services or persons, this shall not discharge him from his responsibilities in this area.

(3) The workers' obligations in the field of safety and health at work shall not affect the principle of the responsibility of the employer.

(4) Measures related to health and safety at work may in no circumstances involve the workers in financial cost.

Principles of protection from risks

ARTICLE 5 – (1) The employer shall fulfil these responsibilities on the basis of the following principles:

a) avoiding risks.

b) evaluating the risks which cannot be avoided.

c) combating the risks at source.

d) adapting the work to the individual, especially as regards the design of work places, the choice of work equipment and the choice of working and production methods, with a view, in particular, to avoiding or minimizing adverse effects of monotonous work and work at a predetermined work-rate on health and safety

- e) adapting to technical progress.
- f) replacing the dangerous by the non-dangerous or the less dangerous.
- g) developing a coherent overall prevention policy which covers technology, organization of work, working conditions, social relationships and the influence of factors related to the working environment
- h) giving collective protective measures priority over individual protective measures
- i) giving appropriate instructions to the workers.

Occupational health and safety services

ARTICLE 6 – (1) In order to provide occupational health and safety services including activities related to the protection and prevention of occupational risks, the employer shall:

a) designate workers as occupational safety specialist, occupational physician and other health staff. In case there is lack of personnel in the undertaking competent enough to be designated, the employer shall enlist a common health and safety unit to provide these services partially or completely. Provided that the employer has the required qualifications and documents, these services can be offered by the employer considering the hazard classification and the number of workers. **(Additional clause: 10/9/2014-6552/16 Article)** In enterprises where less than 50 employees and which are classified as less hazardous employer or employer’s representative who do not have specified qualifications and the required certification, provided by completing the training which declared by the Ministry, shall fulfill occupational health and safety services except for recruitment medical and periodic examinations. ^{(1) (2)}

b) meet the need for means, space and time to help designated people or organizations fulfill their duties.

c) ensure cooperation and coordination among all people and bodies responsible for providing health and safety services at workplaces

d) implement measures that are in accordance with the relevant occupational health and safety and notified in written by the designated persons or organizations providing service

e) inform designated persons, external services consulted and other workers and their employers from any outside enterprise or undertaking engaged in work in his undertaking or enterprise receive adequate information as regards the factors known to affect, or suspected of affecting, the safety and health of workers.

(2) Public bodies and organizations as defined in Public Procurement Law no. 4734 dated 4/1/2002 may get occupational health and safety services either directly from circulating capital enterprises operating under the Ministry of Health or as defined in law no. 4734.

(3) It is not obligatory to hire other health care staff in enterprises where there is a full time occupational physician.

(4) **(Annex: 10/9/2014-6552/16 Article)** For determining appointment time according to (a) of the first paragraph of this article apprentices and trainees with student status which is in the scope of Vocational Training Law no. 3308 dated 5/6/1986 and Higher Education Law no. 2547 dated 4/11/1981 shall not be taken into account the total number of workers.

State Subsidies to Occupational Health and Safety Services

ARTICLE 7 – (1) The Ministry may provide support to enterprises to carry out occupational health and safety services provided that the following conditions are met:

a) This support may be provided to enterprises employing fewer than ten workers except for public bodies and organizations provided that the enterprise is classified as 'very hazardous' and 'hazardous'. However, the President of the Republic may decide that the enterprises employing less than ten workers in the class of 'less hazardous' can benefit from the support.⁽³⁾

b) Social Security Institution shall cover expenses by allocating resources out of premiums collected under the short-term insurance program including occupational accidents and occupational diseases.

c) The records kept by the Social Security Institution shall constitute the basis in the implementation phase.

d) In case it is revealed, in the scope of controls and inspections carried out as per this law and other relevant pieces of legislation, that the employer has failed to enter their employees into social insurance registry, the Social Security Institution shall collect the outstanding debts together with legal interest rate. Employers who are found to be in such violation shall be deprived of the right to benefit from all types of subsidy for a period of three years.

e) The Ministry is the authorized body to guide the practice, remove hesitations on how to implement the law and resolve problems arising out of implementation.

(2) The following issues and the relevant procedures and principles shall be specified by a regulation issued by the Ministry after receiving the approval of the Ministry of Finance:

a) Utilization of subsidies provided as a means to support occupational health and safety services.

b) Determining the amount of remuneration to be paid by the Social Security Institution to cover occupational health and safety services, identifying which part of these services are to be supported and deciding on the payment rate taking account of the characteristics of the enterprises to be provided subsidy with fewer than ten workers

(1) **(Amendment: 10/9/2014-6552/16 Article)** The expression “occupational physician and” is added come later from the expression “in enterprises where less than 10 employees and which are classified as very hazardous” in the subparagraph (a) of the paragraph (1) of the Article 6.

(2) **(Amendment: 18/6/2017-7033/85 Article)** The expression “less than 10” is changed to “less than 50” in the subparagraph (a) of the paragraph (1) of the Article 6.

(3) **(Amendment: 2/7/2018-KHK 703/210 Article)** The expression “Council of Ministers” is changed to “President of the Republic” in the subparagraph (a) of the paragraph (1) of Article 7.

- c) Conditions to be met by the enterprises to be provided with state subsidy.
- d) Characteristics of enterprises providing occupational health and safety service.

(3) The Ministry might cooperate with Ministry of Health, Ministry of Science, Industry and Technology and other relevant professional organizations in order to ensure efficiency and sustainability.

Occupational physicians and occupational safety specialists

ARTICLE 8 – (1) Rights and authorities of occupational physicians and occupational safety specialists might not be restricted in the execution of their duties. Occupational physicians and safety specialists shall seek and maintain professional independence and observe the rules of ethics in the execution of their functions.

(2)(**Amendment: 4/4/2015-6645/1 Article**) Occupational physician and occupational safety specialist, whom are appointed as guide and consultant in occupational health and safety issues to the employer, shall identify the deficiencies and defects regarding occupational health and safety issues in the workplace, considering improvements and changes to the legislation and technical developments and notify the employer regarding these deficiencies and defects in writing. It is the responsibility of the employer to correct the deficiencies and defects. In case the employer fails to implement measures against life threatening dangers such as fire, explosion, collapse, chemical leakage or environment that may cause occupational disease; occupational physician or occupational safety specialist shall notify the component body of the Ministry, if available authorized union representative if not available worker representative. The license of the occupational physician or occupational safety specialist who is detected to act against the previous sentence falls into abeyance for three months and in repetition six months. The contract of the occupational physician or occupational safety specialist cannot be terminated nor can their rights be forfeited. Otherwise employer shall pay compensation not lower than a 1 year employment contract. All the rights of the occupational physician or occupational safety specialist mentioned in the Labour Law and other related laws are reserved. If claims of the occupational physician or occupational safety specialist are found to be false by the court the certificate shall be suspended for 6 months.

(3) Occupational physicians and occupational safety specialists as well as external services consulted shall be accountable to the employer for neglect of duty in the execution of their offices.

(4) Where an occupational physician or occupational safety specialist is found to be in neglect of his/her duties resulting in an occupational accident or occupational disease which causes disruption in the integrity of the body such as death or disability, his/her certificate of authorization shall be suspended.

(5) In order to be able to be employed as an occupational safety specialist, one shall obtain class (A) certification to be considered as qualified enough to work in enterprises classified as very hazardous and at least class (B) certification to work in enterprises classified as hazardous and at least class (C) certification to be hired in less hazardous enterprises. The Ministry might introduce several arrangements specific to a sector related to the designation of occupational safety specialists and occupational physicians. (**Additional sentence: 4/4/2015-6645/1 Article**) Under the framework of sectoral arrangement, procedures and principles regarding determination of which occupational titles from mining and construction and other sectors which occupational safety expert have and occupational safety expert who work in other duties and with these people are made by the Ministry.

(6) In the event that it is required to hire full time occupational physicians and safety specialists due to the working hours, the employer shall establish a workplace health and safety unit. Without prejudice to the provisions of the law applicable to workers, the weekly working hours as defined in the Labour Law no. 4857 dated 22/5/2003 shall be taken into account.

(7) The personnel qualified enough to be hired as occupational physician or occupational safety specialist in public bodies and organizations according to the relevant legislation might be assigned in other public bodies and organizations in addition to their fundamental duties following the approval and consent of the relevant personnel and top management provided that the working hours are not to exceed the time indicated in their contract and all required documentation is presented. An additional payment equal to the product of an indicative figure (200) and quotient of the monthly salary of civil servants shall be awarded by the organization benefiting from this additional service to the personnel assigned in public bodies other than the one that they were originally assigned. There shall be no deduction in this payment other than the deduction due to stamp tax. Assignments exceeding eighty hours in total in a month shall not be included in the additional payment provided that the daily working hours are not exceeded.

(8) Without prejudice to the legislation on full time employment in public health care services, the restrictive provisions of other laws shall not apply to employment of occupational physicians and other health care staff in workplace health and safety units and common health and safety units and fulfilment of their duties the scope of which shall be limited to the number of workers in the enterprise benefiting from the service.

Determining the Hazard Classification

ARTICLE 9 – (1) Considering the short-term insurance premium tariff as defined in article 83 of the Law no. 5510 dated 31/5/2006 on Social Insurance and Universal Health Insurance and in line with the views of commission composed of all parties concerned and set up under the chairmanship of Directorate General of Occupational Health and Safety, the Ministry shall issue a circular on assigning a hazard classification to enterprises.

(2) The hazard classification for enterprises shall be assigned based on the main activities conducted.

Risk assessment, control, measurement and examinations

ARTICLE 10 – (1) The employer shall conduct an assessment of risks to health and safety of workers or get one carried out, taking account the following points:

- a) The situation of workers who might get affected by risks.
- b) Choice of work equipment, the chemical substances or preparations used.
- c) Workplace organization and housekeeping.
- d) The situation of female workers and other workers such as young workers, older workers, disabled, pregnant or breastfeeding workers who need specific policies.

(2) The employer shall identify measures needed to be taken for the safety and health of workers as a consequence of the risk assessment and protective equipment needed to be used to implement the measures.

(3) Measures to be taken for the safety and health protection of workers and the working and production methods implemented by the employer must assure an improvement in the level of protection afforded to workers with regard to safety and health and be practicable at all hierarchical level within the undertaking and/or enterprise.

(4) The employer shall ensure that controls, measurements, examinations and researches are carried out to determine the risks related to safety and health present at the workplace and affecting the workers.

Emergency plans, fire-fighting and first aid

ARTICLE 11 – (1) The employer shall;

a) assess the foreseeable emergency situations and identify those that might potentially affect workers and work environment taking into account the work environment, substances used, equipment and environmental conditions present in the workplace and take measures to prevent and limit adverse effects of emergency situations.

b) conduct measurement and assessments to afford protection against adverse effects of emergency situations and prepare emergency plans.

c) designate a sufficient amount of persons trained in prevention, protection, evacuation, fire fighting, first aid and other related issues taking into account the size and specific hazards of the undertaking, nature of the activities, number of employees and other persons present in the enterprise. The number of such workers, their training and equipment available to them shall be adequate and the employer shall arrange emergency drills and trainings and make sure that the rescue teams are always available to respond.

d) arrange any necessary contacts with external services, particularly as regards first aid, emergency medical care, rescue work and fire-fighting.

Evacuation

ARTICLE 12 – (1) In the event of serious, imminent and unavoidable danger, the employer shall:

a) take action and give instructions to enable workers to stop work and/or immediately to leave the work place and proceed to a place of safety.

b) save in exceptional cases for reasons duly substantiated; refrain from asking workers to resume work in a working situation where there is still a serious and imminent danger.

(2) The employer shall ensure that all workers are able, in the event of serious and imminent danger to their own safety and/or that of other persons, and where the immediate superior responsible cannot be contacted, to take the appropriate steps in the light of their knowledge and the technical means at their disposal, to avoid the consequences of such danger. Their actions shall not place them at any disadvantage, unless they acted carelessly or there was negligence on their part.

Right to Abstain from Work

ARTICLE 13 – (1) Workers exposed to serious and imminent danger shall file an application to the committee or the employer in the absence of such a committee requesting an identification of the present hazard and measures for emergency intervention. The committee shall convene without delay and the employer shall make a decision immediately and write this decision down. The decision shall be communicated to the worker and workers' representative in writing.

(2) In the event that the committee or the employer takes a decision that is supportive of the request made by the worker, the worker may abstain from work until necessary measures are put into practice. The worker shall be entitled to payment during this period of abstention from work and his/her rights arising under the employment contract and other laws shall be reserved.

(3) In the event of serious, imminent and unavoidable danger; workers shall leave their workstation or dangerous area and proceed to a place safety without any necessity to comply with the requirements in the first paragraph. Workers may not be placed at any disadvantage because of their action.

(4) Where the necessary measures are not taken despite the requests by workers, workers under labour contract might terminate their employment contract in accordance with the provisions of the law applicable to them. As for the workers under collective bargaining agreement, the abstention period as defined in this article shall be deemed as

actual work time.

(5) In compliance with the article 25 of this law, the provisions of this article shall not apply in the event of cease of work in the enterprise.

Recording and Notification of Occupational Accidents and Diseases

ARTICLE 14 – (1) The employer shall;

a) keep a list of all occupational accidents and diseases suffered by his workers and draw up reports after required studies are carried out.

b) investigate and draw up reports on incidents that might potentially harm the workers, work place or work equipment or have damaged the work place or equipment despite not resulting in injury or death.

(2) The employer shall notify the Social Security Institution of the following situations within a prescribed time as follows:

a) Within three work days of the date of the accident.

b) Within three work days after receiving the notification of an occupational disease from health care providers or occupational physicians.

(3) Occupational physicians or health care providers shall refer workers who have been pre-diagnosed with an occupational disease to health care providers authorized by the Social Security Institution.

(4) Occupational accidents referred to health care providers shall be notified to the Social Security Institution within ten days at most and authorized health care providers shall notify the Social Security Institution of the occupational diseases within the same period of time.

(5) The procedures and principles as regards this article shall be defined by the Ministry following the receipt of approval from the Ministry of Health.

Health Surveillance

ARTICLE 15 – (1) The employer shall;

a) ensure that workers receive health surveillance appropriate to the health and safety risks they incur at work.

b) Health examination of workers is required under the following situations:

1) Pre-assignment.

2) Job change after the assignment.

3) In case of return to work following repetitive absence from work due to occupational accidents, occupational diseases or health problems upon request.

4) At regular intervals recommended by the Ministry in the course of employment taking into account the workers, the nature of work and hazard classification of the enterprise.

(2) Workers to be employed (**Amended expression: 10/9/2014-6552/17 Article**) in jobs classified as hazardous and very hazardous shall receive a medical report before employment.⁽¹⁾

(3) (**Amended first sentence: 10/9/2014-6552/17 Article**) Medical reports required to be received as per this law shall be obtained from occupational physician. It might also obtaine from the Public Health Service Providers or family physicians for enterprises where less than 50 workers and which are classified as less hazardous.⁽²⁾

(4) The employer shall cover all expenses arising from health surveillance and any additional expense related to this surveillance. The health surveillance may in no circumstances bring financial burden to workers.

(5) Health data of workers undergoing a medical examination shall be kept confidential in order to ensure protection of individual privacy and prestige.

Worker Information

ARTICLE 16 – (1) The employer shall inform the workers and workers' representatives of the following issues taking into account the characteristics of the enterprise for the purposes of ensuring and maintaining the occupational health and safety:

a) the safety and health risks and protective and preventive measures.

b) their legal rights and responsibilities.

c) Workers designated to handle first aid, extra ordinary situations, disasters, fire-fighting and the evacuation.

(2) The employer shall;

a) as soon as possible, inform all workers who are, or may be, exposed to serious and imminent danger of the risk involved as defined in article 12 and of the steps taken or to be taken as regards protection.

b) ensure that employers of workers from any outside undertakings and/or enterprises engaged in work in his undertaking and/or enterprise receive adequate information concerning the points referred to in paragraph 1 which is to be provided to the workers in question.

c) ensure that support staff and workers' representatives shall have access to the risk assessment, protective and preventive measures related to safety and health at work, the information yielded by measurements, analysis, technical controls, records, reports and inspections.

Training of Workers

ARTICLE 17 – (1) The employer shall ensure that each worker receives adequate safety and health training.

(1) (**Amendment: 10/9/2014-6552/17 Article**) The expression “enterprises” is changed to “in jobs” in the paragraph (2) of the Article 15.

(2) (**Amendment: 18/6/2017-7033/85 Article**) The expression “less than 10” is changed to “less than 50” in the paragraph (3) of this Article 15.

This training shall be provided on recruitment, in the event of a transfer or a change of job, in the event of a change in equipment or introduction of any new technology. The training shall be adapted to take account of new or changed risks and repeated periodically if necessary.

(2) Workers' representatives shall be entitled to appropriate training.

(3) Workers failing to present documents to prove that they have received vocational training on their job might not be employed in jobs classified as hazardous and very hazardous which require vocational training.

(4) Workers who have had occupational accident or disease shall receive additional training on reasons for the accident or disease, ways to protect themselves and safe working methods. Workers who are away from work for any reason for more than six months shall receive refresher training before return to work.

(5) Workers from outside undertakings and/or enterprises might not start to be employed in jobs classified as hazardous and very hazardous unless they can present documents to prove that they have received appropriate instructions regarding health and safety risks.

(6) The employer who is the party to temporary employment relationship shall ensure that the worker receives training on health and safety risks.

(7) Trainings mentioned in this article may in no circumstances bring financial burden to workers. Time spent on trainings shall be deemed as actual work time. In case the time allocated for trainings exceeds weekly working hours, hours worked in excess of weekly working hours shall be considered as overtime.

Consultation with and Participation of Workers

ARTICLE 18 – (1) The employer shall consult workers or representatives authorized by trade unions in enterprises with more than two workers' representatives or workers' representatives themselves in the absence of trade union representative to ensure the consultation and participation of workers. This presupposes:

a) Consultation with regard to safety and health at work, the right of workers and/or their representatives to make proposals and allowing them to take part in discussions and ensuring their participation.

b) Consultation as regards the introduction of new technology and the consequences of the choice of equipment, the working conditions and the working environment for the safety and health of workers.

(2) The employer shall ensure that support staff and workers' representatives shall be consulted in advance with regard to:

a) The assignment of occupational physicians, occupational safety specialists and other staff inside the enterprise or the enlistment, where appropriate, of the competent services or persons outside the undertaking and/or enterprise and designation people to be in charge of first aid, fire fighting and evacuation.

b) Identification of the protective equipment and protective and preventive measures to be introduced as a consequence of risk assessment.

c) Prevention of health and safety risks and providing protective services.

d) Worker information.

e) The planning of training to be provided to workers.

(3) Workers and/or their representatives are entitled to report to the authority responsible for safety and health protection at work if they consider that the measures taken and the means employed by the employer are inadequate for the purposes of ensuring safety and health at work. The workers may not be placed at a disadvantage because of their respective activities.

Workers' Obligations

ARTICLE 19 – (1) It shall be the responsibility of each worker to take care as far as possible of his own safety and health and that of other persons affected by his acts or commissions at work in accordance with his training and the instructions given by his employer

(2) To this end, workers must in particular, in accordance with their training and the instructions given by their employer:

a) make correct use of machinery, apparatus, tools, dangerous substances, transport equipment and other means of production; use such safety devices correctly and refrain from changing or removing arbitrarily safety devices fitted

b) make correct use of the personal protective equipment supplied to them.

c) immediately inform the employer and/or the workers' representative of any work situation they have reasonable grounds for considering represents a serious and immediate danger to safety and health and of any shortcomings in the machinery, apparatus, tools, facilities and buildings;

d) cooperate with the employer and/or workers' representative to enable any tasks or requirements imposed by the competent authority to protect the safety and health of workers at work to be carried out

e) cooperate with the employer and/or workers' representative for the safety and health of workers within their field of activity.

Workers' Representative

ARTICLE 20 – (1) In the event that no person might be elected or chosen to represent workers, the employer

shall designate a workers' representative considering the risks present at work and the number of workers with special attention to balanced participation of workers. The number of representatives shall be identified in the following way:

- a) One representative for enterprises between two and fifty workers.
- b) Two representatives for enterprises between fifty one and one hundred workers.
- c) Three representatives for enterprises between one hundred one and five hundred workers.
- d) Four representatives for enterprises between five hundred one and one thousand workers.
- e) Five representatives for enterprises between one thousand one and two thousand workers.
- f) Six representatives for enterprises between two thousand one and more workers.

(2) Where there is more than one workers' representative, the chief representative shall be elected among the other workers' representative.

(3) Workers' representatives shall have the right to ask the employer to take appropriate measures and to submit proposals to him to that end to mitigate hazards for workers and/or to remove sources of danger.

(4) Workers' representatives may not be placed at a disadvantage because of their respective activities and the employer shall provide them with the necessary means to enable such representatives to exercise their rights and functions.

(5) Where there is an authorized trade union represented in the enterprise, the trade union representative shall act as workers' representative.

SECTION THREE

Council, Committee and Coordination

National Occupational Health and Safety Council

ARTICLE 21 – (1) A council has been established to make recommendations on policies and strategies related to occupational health and safety throughout the country.

(2) (Cancelled: 2/7/2018-KHK-703/210 Article)

(3) (Cancelled: 2/7/2018-KHK-703/210 Article)

(4) (Cancelled: 2/7/2018-KHK-703/210 Article)

(5) (Cancelled: 2/7/2018-KHK-703/210 Article)

(6) (Cancelled: 2/7/2018-KHK-703/210 Article)

(7) (Cancelled: 2/7/2018-KHK-703/210 Article)

Occupational Health and Safety Committee

ARTICLE 22 – (1) The employer shall set up an occupational health and safety committee in enterprises where a minimum of fifty employees are employed and permanent work is performed for more than six months. Employers are under the obligation to enforce the decisions of the occupational health and safety committees taken in accordance with the legislation on occupational health and safety.

(2) In the event that main employer – sub contractor relation exceeds six months:

a) Where the contractor and sub-contractor have set up separate committees, the contractor shall ensure cooperation in the enforcement of decisions and maintenance of activities.

b) Where the contractor has set up a committee, the sub-contractor shall appoint by proxy an authorized representative to facilitate coordination.

c) The contractor who is not required to set up a committee shall appoint by proxy an authorized member to be represented in the committee set up by the sub-contractor to ensure cooperation and coordination.

d) Where the contractor is not supposed to set up a committee and the sub-contractor employs more than fifty workers, the contractor and sub-contractor shall set up a joint committee provided that the cooperation is ensured by the contractor.

(3) Where there is more than one employer in the same workplace and these employers set up more than one committee, these employers shall inform each other of the decisions of the committees which might affect one another.

Coordination of Occupational Health and Safety Services

ARTICLE 23 – (1) Where there is more than one employer in the same work environment, the employers shall cooperate in the implementation of measures related to health and safety at work and occupational hygiene. The employers shall work in cooperation to prevent occupational risks and offer protection against such risks and inform each other and workers' representatives on these risks.

(2) Where there is a business centre, office block, industrial zone or an industrial estate with more than one workplace, the management shall ensure cooperation in the field of occupational health and safety. The management shall advise the employers to take necessary measures against hazards that might affect the health and safety in other workplaces. The management shall notify the Ministry of the employers failing to take these measures.

SECTION FOUR Inspection and Administrative Sanctions

Inspection, examination, investigation and authority, obligation and responsibility of the inspector

ARTICLE 24 – (1) The monitoring and inspection with regards to the implementation of this Law is carried out by the labour inspectors of the Ministry authorized to carry out occupational health and safety inspections. During the inspections and examinations to be carried out under this Law, the articles numbered 92, 93, 96, 97 and 107 of the Law numbered 4857 are implemented.

(2) The Ministry has the authority to carry out occupational health and safety measurements, examinations and investigations, to take samples for this purpose and to control and inspect training institutions and common health and safety units. The authorized personnel in this respect are obliged to avoid interrupting the work as much as possible and to keep professional secrets of the employer and the workplace and what he/she sees and learns confidential. The procedures and principles of such control and inspection are regulated by the Ministry.

(3) The audit and inspection of military workplaces and the workplaces producing materials for home security and the results of such inspection are carried out according to the regulations to be jointly prepared by the Ministry of National Defence and the Ministry of Labour.

Cease of operations

ARTICLE 25 – (1) In case of any situation found dangerous to workers' life in the premises, working methods or equipment, operations shall be stopped in the premises or any part of it, taking into account the nature of the hazard and the part of the premises and the workers to be affected by the hazard, until such hazard is eliminated. In addition, at the workplaces classified as very hazardous, mining, metal and construction workplaces, workplaces where hazardous chemicals are used and the workplaces where serious industrial accidents may take place, the operations shall be stopped in case of a lack of risk assessment.

(2) The group of three labour inspectors, authorized to carry out occupational health and safety inspection, carry out required examination based on the decision of the labour inspector authorized to carry out occupational health and safety inspection and may decide to stop the operations in the days following the date of the decision. However, in case the hazard requires urgent intervention, the labour inspector taking the decision shall stop the operations temporarily until a decision is taken by the group of inspectors.

(3) The decision on cease of operations shall be sent in one day to the relevant local authority and to the Provincial Directorate of Labour and Employment which has the file of the workplace. The decision on the cease of operations is enforced in twenty four hours (**Annex expression: 4/4/2015-6645/2 Article**) by means of the police. However, the cease of operations decision requiring urgent intervention is enforced (**Annex expression: 4/4/2015-6645/2 Article**) by local authority by means of the police on the same day. ⁽¹⁾

(4) The employer may appeal the decision on the cease of operations through authorized labour court in six days following the enforcement of the decision. The appeal shall not affect the enforcement of the decision on the cease of operations. The court first evaluates the appeal and takes a decision in six working days. The court's decision is the final decision.

(5) In case that the employer informs the Ministry in written form that the factors leading to cease of operations are not in place any more, there shall be another examination at the workplace in seven days at maximum in order to address the request of the employer.

(6) The employer is obliged to make the payments of his workers unemployed due to the cease of operations or assign them to another job judging by their profession or situation on the condition that they are not paid less.

(7) (**Annex: 4/4/2015-6645/2 Article**) In jobs classified as very hazardous and taken by procurement; technological development, increasing the workforce capacity, without providing a portion elements such as innovation in production methods life-threatening forms of work due to the force production by way act contrary to production and/or the manufacturing plan, work programs, considered as a reason to cease of operation.

(8) (**Annex: 4/4/2015-6645/2 Article**) Employer and their representatives who make working without permission in ceased operations in the workplace is given a prison sentence from three years to five years.

Prohibition from public procurement due to fatal occupational accident

ARTICLE 25/A – (Annex: 4/4/2015-6645/3 Article)

In the mining workplace occurring fatal occupational accidents, as determined by the employer defected by the judgment, is prohibited for two years from participating in public procurement by the court with specified in the second paragraph of the Article 26 of Public Procurement Contracts Law dated 5/1/2002 and numbered 4735. A copy of the decision is sent to the Public Procurement Authority to be processed by the employer of record and shall be announced on the Authority's website.

⁽¹⁾(**Amendment: 4/4/2015-6645/2 Article**) The expression "by means of police" is added come after the statements of "local authority" in the paragraph (3) of Article 25.
